

# James Singletary IV

Application / Software / UI Developer

[www.jamessingletaryiv.dev](http://www.jamessingletaryiv.dev)

I'm a Senior UI Developer with Full-Stack capabilities. I consider custom Markup, JavaScript, and UI Development to be my core strengths along with API Development & Intergration. That being said, I'm also quite comfortable with Relational & Non-Relational Databases and working from the Terminal.

## Personal:
